Report on Ethereum transactions - Ukraine DAO

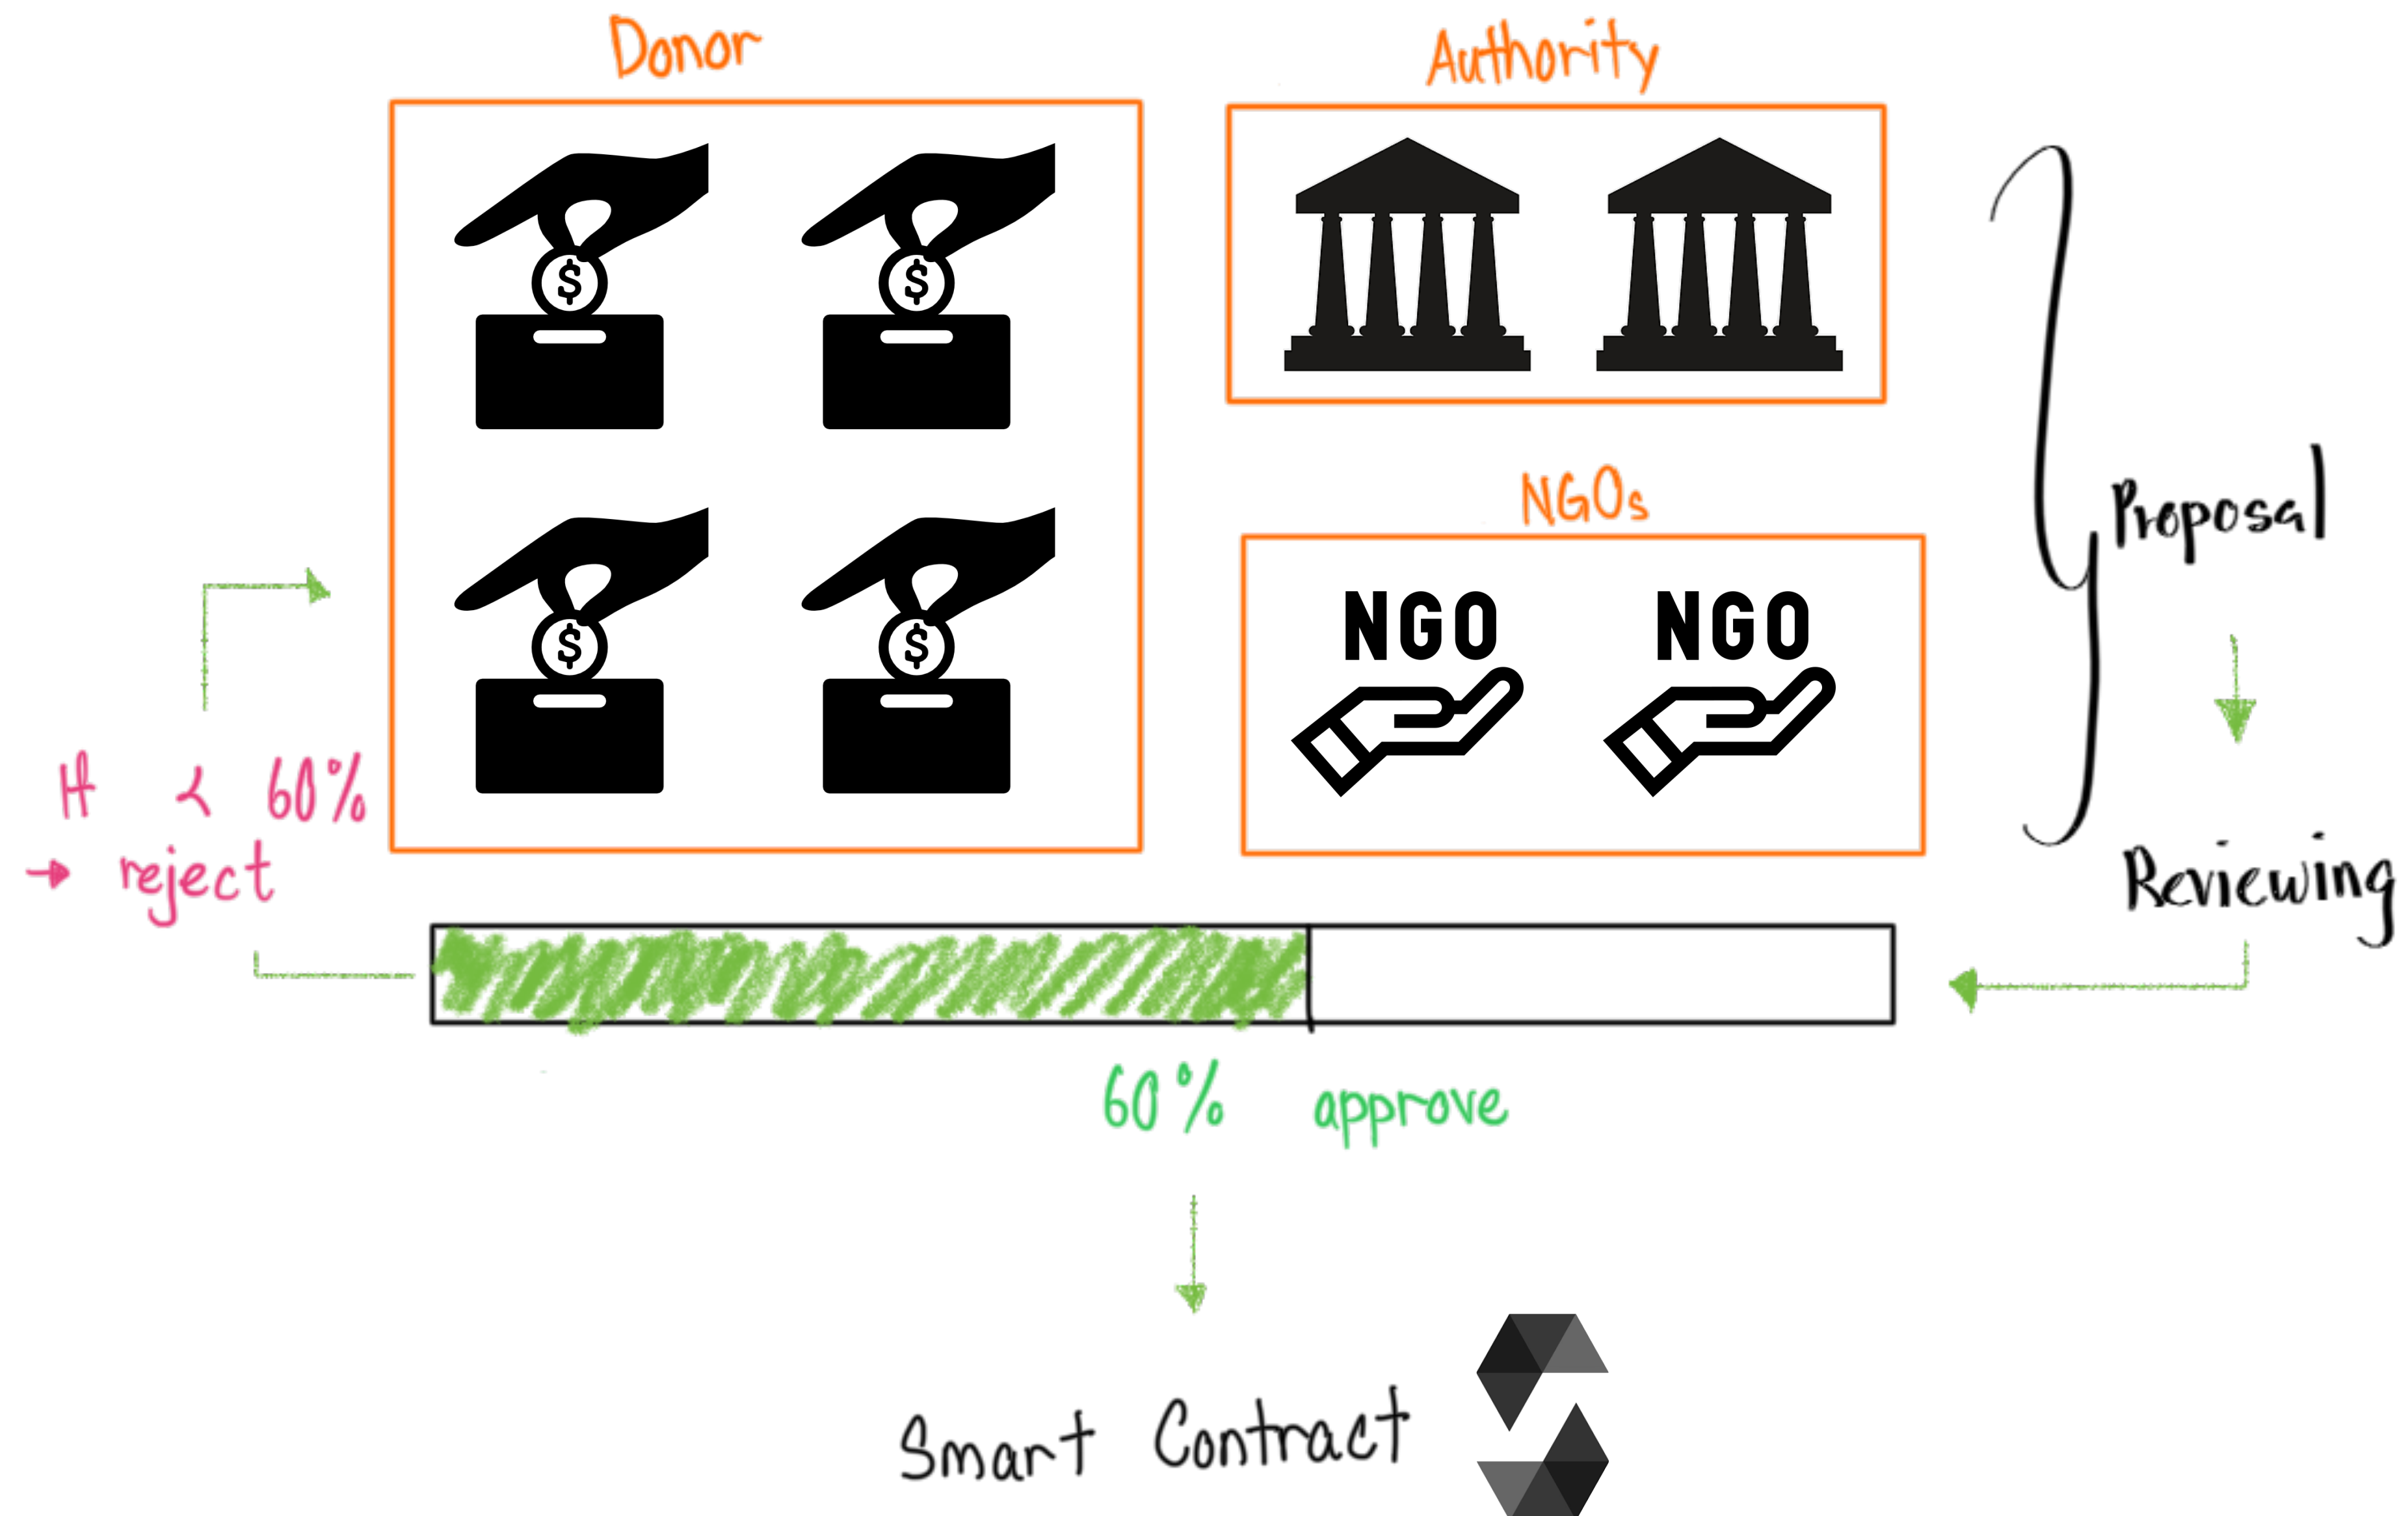

Версія українською: [Звіт по Ethereum транзакціям Ukraine DAO](#)

Founded on February 21, 2022, the story of the decentralized autonomous organization [Ukraine DAO](#) began for many Ukrainians quite recently.

Since March 2022, the community has focused on countering Russian disinformation, promoting Ukrainian culture, and documenting Russian war crimes. The data collected by Ukraine DAO in Kharkiv was submitted by partners from the Starling Lab to the International Criminal Court in The Hague as the world's first cryptographic package of documents (see [No access](#)). Our activities have also been widely covered in the media (see [Ukraine DAO in the media](#)).
